

Follow Me Down

Hades/Man:

Am **G** **F** **G**
I know well the reason my heartache resumes
C **G** **C** **Am**
(For) I love not the season when primroses bloom
Am **G** **F** **G**
I know winter fades and you'll leave me one day
C **G** **C** **Am**
Too dark is the springtime when you've gone away
Am G C G C F Em
Light the path and follow me-

Am G Am G Am

CH (Both): *Down, hey down, hey down*

Persephone/Woman:

Such sorrow is mine for I know all too well
Our parting is much of what shadows your hell
I can't shun the sunlight or those whom I serve
Though truly in love there's much more you deserve
Still I find I follow you- **(CH)**

Hades/Man:

I wonder had I known what destiny planned
Would I have the courage to take up your hand
Mayhap it is true love can lessen one's pain
(But) I know only grief when you will not remain
Come, my heart, and follow me- **(CH)**

Persephone/Woman:

Although fate has given us much cause to grieve
For autumn's embrace we endure winter's eve
Remember our laughter and banish your fears
Far greater our joy than these transient tears
I will always follow you- **(CH)**

Hades/Man:

Forgive me, my Love, all my worrisome ways
I cherish your comfort and each of our days

Persephone/Woman:

My Love, my sweet winter, take heart for I vow
I followed you then and I'll follow you now

Hand in hand we share this path- **(CH)**
