

Stand My Side

My blade's as sharp as yours, my heart as true
My shield as needed when war I nigh
I too believe all we fight for is just
I am as ready as you to die

CHORUS:

**So stand my side
I am no damsel and I too have pride
Shoulder to shoulder we enter the fray
And we are all soldiers this day**

I have shed blood sweat and tears for our cause
Many know peace for my sacrifice
Chivalry seeks to spare women this cost
I too would save others such a price **(CH)**

I'm not the strongest or swiftest we boast
My deeds of valor are but a few
Unsung my glories of victories past
But I face courage and fear as you **(CH)**

I am no mighty duke, I am no king
I am no well tested noble knight
But if I fall first I fall blade in hand
Naught will deny me that worthy right **(CH)**

And unto all of my sisters in arms
Mind not the few who might bar the way
Don well your armor and stand proud and tall
Rise up beside me and boldly say: **(CH)**
